Who Else Wants the Smile of Your Dreams? Dr. Pluid Gets His Dream Smile!

Recently, Dr. Pluid made a decision in between seeing patients. He wanted something more for his own smile. After being a part of our practice, he has experienced firsthand how our cosmetic dentistry changes lives. He told our other doctors that he has not liked the appearance of his teeth for a long time. After carefully evaluating his concerns, we came to the conclusion that he only needed 4 porcelain veneers, some conservative teeth reshaping and whitening for the rest of his teeth. The result? Dr. Pluid is always flashing his new dream smile and his confidence shows!

This beautiful lady who shall remain anonymous, had wanted to improve her smile for some time. We decided to see how much improvement we could achieve by just doing cosmetic porcelain

bonding on the 4 upper front teeth and a little reshaping of others. It turned out beautiful! It's fun to see people gain self-confidence because of something we did. We love changing lives! When we change a life, we change our own!

Want the smile of your dreams? Call today at 208-938-8228 and schedule your complimentary 5 Point Cosmetic Smile Evaluation. Get 4 or more cosmetic porcelain veneers by March 29th and receive your dream smile plus FREE Sizzler dinner for 2!
